VINNIE ROSSI

CANTA Integrated Amplifier

The CANTA Integrated Amplifier combines the tonal richness and dimensionality of Class A 6SN7 triodes with the effortless control of a high-current MOSFET output stage. Delivering up to 250W per channel into 4Ω, it brings together refined analog performance, intuitive control, and elegant industrial design in a single chassis.

FEATURES

- 6SN7 Triode Linestage
- Dual-Mono Class AB MOSFET Output Stage
- 250W per Channel into 4Ω
- >1000W Low-Noise Power Supply with Belleson® Super-Regulation
- 100-Step Resistor-Ladder Volume Control
- Two Balanced XLR + Two Single-Ended RCA Inputs
- Selectable Gain & Per-Input Memory
- Home Theater Bypass
- High-Resolution LCD
- Precision-Machined Solid Aluminum Chassis and Remote Control

10-year warranty
