VINNIE ROSSI

CANTA Preamplifier

The CANTA Preamplifier brings together the natural tonal richness and dimensionality of Class A 6SN7 triodes with precision analog circuitry and an ultra-low-noise power supply dedicated entirely to preamplification. Built around a minimalist, dual-mono architecture with exceptionally short signal paths, every element has been thoughtfully engineered to preserve detail, dynamics, and musical expression. Housed within a beautifully crafted solid aluminum chassis, CANTA offers a refined approach to preamplification, designed for deeper engagement with your music.

FEATURES

- Class A, Dual-Mono 6SN7 Triode Linestage
- Ultra Low-Noise Power Supply with Belleson® Super_Regulation
- Precision-Machined Solid Aluminum Chassis and Remote Control
