

10TH ANNIVERSARY SPECIAL EDITION WOOD BLOCK RACK

TOP SHELF RACK AND SOLID BASE FOR YOUR SYSTEM - MAIN INFORMATIONS - EDITION 02.2021

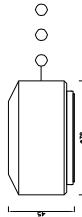

MORE THAN 10 YEARS OF EXPERIENCE IN DESIGNING AND BUILDING OF AUDIO RACKS AND ACCESSORIES HIDDEN INSIDE THIS SPECIAL EDITION RACK

EXCLUSIVE, HAND FINISHED SHELVES WITH CARBON

- precisely CNC machined shelves available as panzerholz with carbon, panzerholz, plywood with carbon or plywood
- 550x550[mm] and 646x550[mm] in single rack (on the top only) shelves (other sizes available on request)
- available in about 100 different wooden veneers
- beautiful matte or high gloss hand finishing
- extremely strong and stiffen shelves for low and very big load
- the best reduction and quenching of unwanted resonances and vibration control for panzerholz and plywood material additionally supported by ceramic feet "tablette" mounted under each shelf, and carbon sheets on the top for even better quenching of unwanted resonances

SOLID HIGH GRADE ALUMINUM SIDE PLATES

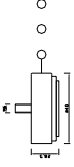

- 2 precisely CNC machined 25 millimeters thick side plates made of high grade polished aluminum sheets for the best and the strongest mounting of vertical legs
- exclusive high gloss hand polished finishing protected against finger prints and easy for cleaning
- extremely strong and stiffen construction for small to very big loads
- the best reduction of unwanted resonance, vibration control and quenching of vibration of selected high grade aluminum material connected to wood and carbon fibre sheets

NEW CERAMIC DISC HYBRID

- 4 top range ceramic disc hybrid feet under rack for the best separation from the ground/floor, the best vibration control and reduction of unwanted resonances as compilation of carefully chosen of different properties materials (each foot is assembled of 8 elements of different mechanical and physical properties)
- 3 ceramic balls inside each foot
- foot allow leveling of whole rack
- high quality, precisely CNC machined parts

ENGINEERS KNOWLEDGE
TRADITION
THE HIGHEST QUALITY
CNC MACHINING
CRAFTSMANSHIP FINISHING
HIGH END PRODUCTS SUPPORTED BY REVIEWERS
TESTS
EXPERIENCE ON HIGH-END MARKET SINCE 2009

CERAMIC DISC TABLETTE FEET

- 4 ceramic feet under each shelf for the best separation of each shelf and audio component on its, vibration control and reduction of unwanted resonances as compilation of 4 carefully chosen of different properties materials
- 3 ceramic balls inside each foot
- allow to leveling of each shelf separately
- high grade precisely CNC machined parts
- exclusive high gloss hand polished finishing, protected against finger prints and easy for cleaning

SOLID HIGH GRADE ALUMINUM LEGS

- 4 precisely CNC machined legs made of high grade selected solid aluminum bars for the best reduction of unwanted resonances, vibration control and quenching of vibrations
- exclusive high gloss hand polished finishing protected against finger prints and easy for cleaning
- extremely strong construction for small and very big load
- exclusive real carbon fibre side blind covers as decorative elements and additional layer of material for reduction of vibrations and quenching of unwanted resonances

SOLID HIGH GRADE ALUMINUM ADJUSTABLE BEAMS

- 2 precisely CNC machined adjustable beams on each level of shelves made of high grade selected solid aluminum bars for the best reduction of unwanted resonances, vibration control and quenching of vibrations
- adjustable shelves distances every 3 centimeters
- exclusive high gloss hand polished finishing protected against finger prints and easy for cleaning
- extremely strong construction for small and very big load
- the best reduction of vibrations by connection of high grade selected aluminum and 6 carbon fibre side covers
- exclusive real carbon fibre blind covers (6 in each beam) as decorative element and additional layer of material for quenching of vibrations and resonances

EXCLUSIVELY FINISHED EXTRA STRONG BOTTOM SHELF

- precisely CNC machined 80 millimeters thick extremely strong and stiffen construction of bottom shelf for small and very big loads as heavy amps, monoblocks...etc.
- real carbon fibre sheets at the top of shelf as additional exclusive finishing and better reduction and vibration control
- the best reduction and quenching of unwanted resonances and vibration control in big mass of the shelf + carbon sheets, additionally supported by ceramic disc feet from the bottom
- beautiful matte or high gloss hand finished surface

- 4 CERAMIC DISC HYBRID FEET UNDER BIG BOTTOM SHELF + LEVELING
- 4 CERAMIC DISC TABLETTE FEET UNDER EACH SHELF OF THE RACK + LEVELING
- EACH RACK HAS THEIR OWN UNIQUE SERIAL NUMBER AND CERTIFICATE OF AUTHENTICITY SIGNED BY FOUNDER
- FINISHING - WOODEN VENEERS + MAT OR HIGH GLOSS HAND POLISHED VARNISH + CARBON FIBRE SHEETS
- PACKAGING - WOODEN BOX (OR FLIGHT CASE ON REQUEST)
