VINNIE ROSSI

CANTA Stereo Power Amplifier

The true measure of an amplifier isn't simply how much power it delivers, but how convincingly it brings music to life. From the finest nuances to the most explosive dynamics, exceptional amplification demands speed, precision, and absolute control.

The CANTA Stereo Power Amplifier brings these qualities together through its dual-mono Class AB MOSFET architecture, innovative circuitry, and exceptionally quiet, responsive power supply.

The result is an amplifier that combines tremendous driving capability with extraordinary finesse, effortlessly revealing the scale, texture, and emotional expression of music.

FEATURES

- Dual-Mono, Class AB MOSFET Output Stage
- Output Power: 250W RMS Per Channel Into 4-ohms
- >1000W Low-Noise Power Supply with Belleson® Super-Regulation
- Precision-Machined Solid Aluminum Chassis
- Fully Balanced Input Stage with XLR Input Jacks
- Ultra-short Signal and Power Wiring
- Trigger Input
- High-Resolution LCD

10-year warranty
